

What does ballard power systems do

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

What does Ballard do?

Ballard is focused on applications where hydrogen fuel cells have a clear advantage and we are working on accelerating fuel cell technology adoption. Interested in our products or services? Our vision is to be the leading global provider of innovative fuel cell & clean energy solutions offering superior performance at a reduced operating cost.

Does Ballard Power offer a fuel cell service?

*fields are required. Ballard Power is the leading global provider of innovative clean energy fuel cell solutions that offer superior performance at a reduced operating cost.

Who is Ballard fuel cell?

Over the years, Ballard has become a leader for PEM fuel cell technology, delivering products & services which have the Power to Change the World[®]. Learn more.

How does Ballard Power Systems make money?

The primary revenue streams are drawn from the sales of power products for buses, trucks, rail, and marine sectors, alongside emerging markets like material handling and off-road equipment. The firm's strategic foothold in Europe through its subsidiary, Ballard Power Systems Europe A/S, amplifies its market reach and scale.

Who is Geoffrey Ballard?

Geoffrey Ballard (1932-2008) With passion and determination over the years, Ballard became a leader for PEM fuel cell technology, delivering products and services which have the Power to Change the World[®]; 2020 Ballard becomes the first fuel cell company to power buses for more than 10 million cumulative kilometers of revenue service.
