

What is ballard power systems

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Does Ballard Power offer a fuel cell service?

*fields are required. Ballard Power is the leading global provider of innovative clean energy fuel cell solutions that offer superior performance at a reduced operating cost.

What does Ballard do?

Ballard is focused on applications where hydrogen fuel cells have a clear advantage and we are working on accelerating fuel cell technology adoption. Interested in our products or services? Our vision is to be the leading global provider of innovative fuel cell & clean energy solutions offering superior performance at a reduced operating cost.

How does Ballard Power Systems make money?

The primary revenue streams are drawn from the sales of power products for buses, trucks, rail, and marine sectors, alongside emerging markets like material handling and off-road equipment. The firm's strategic foothold in Europe through its subsidiary, Ballard Power Systems Europe A/S, amplifies its market reach and scale.

Who is Ballard fuel cell?

Over the years, Ballard has become a leader for PEM fuel cell technology, delivering products & services which have the Power to Change the World®. Learn more.

Where can I buy Ballard Power Systems stock?

Shares of BLDP stock can be purchased through any online brokerage account. Popular online brokerages with access to the U.S. stock market include Charles Schwab, E*TRADE, Fidelity, and Vanguard Brokerage Services. What other stocks do shareholders of Ballard Power Systems own?

Current and historical p/e ratio for Ballard Power Systems (BLDP) from 2010 to 2024. The price to earnings ratio is calculated by taking the latest closing price and dividing it by the most recent earnings per share (EPS) number. The PE ratio is a simple way to assess whether a stock is over or under valued and is the most widely used valuation measure.

Ballard Power Systems announced it has received notification from the Hydrogen and Fuel Cell Technologies Office within the U.S. Department of Energy (DOE) that Ballard's applications for two grants totaling US\$40
