

What are some interesting energy storage ETFs?

Another interesting energy storage ETF is GRID, which is focused on alternative energy infrastructure companies such as power management company Eaton Corp. (ETN), industrial conglomerate Johnson Controls International PLC (JCI), and electronics and automation pioneer Abb Ltd. (ABB).

Is wind power better than solar?

While many folks may think of solar as the go-to source for clean energy, wind power is even more popular in certain areas. According to the U.S. Energy Information Administration, wind energy generation accounts for 10% of total electricity in the United States - and overseas in the U.K., wind power is closer to 30% of total generation.

Should governments invest in green energy?

The IEA forecast suggests that governments and other entities need to significantly boost their investments in clean energy such as wind, solar, hydrogen, battery storage, and electric vehicles (EVs). As a result, companies focused on green energy should prosper as more investment flows into the sector over the coming years.

Is the First Trust Global Wind ETF a good investment?

The First Trust Global Wind ETF was able to edge out its benchmark for 1-year NAV performance but tracked below its index in all other time frames reviewed. This performance is normal for a fund that passively tracks its benchmark. Compared to the S&P 500, FAN underperformed in all periods reviewed through January 31, 2022.

What is the S&P Kensho Clean Power ETF (cnrg)?

The SPDR S&P Kensho Clean Power ETF (CNRG) is an exchange-traded fund that seeks to track an index of innovative companies in the U.S. and around the globe that are in the clean energy sector, including the areas of solar, wind, geothermal, and hydroelectric power.

Which energy storage stocks are a good investment?

Albemarle is the top holding, followed by Tesla, so if you can't decide from the previous stocks, this fund is a good one-stop investment to play the pending energy storage boom. With more than \$1 billion under management and about 60 components, this First Trust fund is another interesting and diversified way to play energy storage.
